SUMMARY

On the Insert tab, the galleries include items that are designed to coordinate with the overall look of your document. You can use these galleries to insert tables, headers, footers, lists, cover pages, and other document building blocks. When you create pictures, charts, or diagrams, they also coordinate with your current document look.

PERSONAL PROJECTS

Next to my education I also worked on a few side projects to improve my knowledge and understanding of different parts of my field. Below are the projects I will finish so far.

Build a simple Clock with python

- I also learned about some python library while making this project (tkinter and time python library).
- I also took help from Google and YouTube.

Build a Dictionary with Api

- In this project I learn how to extract api with request library and also took help from google and YouTube.
